Introduction to K-12 Primary & Secondary Education near Sheppard AFB and surrounding communities

Welcome to Sheppard Air Force Base, the largest and most diversified training center in the Air Education and Training Command. Sheppard's relationship with its host communities, Wichita Falls, Burkburnett, Iowa Park, and surrounding areas, is one of the best in the Air Force. We hope you will find this education guide helpful as you become acquainted with the base and local area.

Public Schools

There are a number of School Districts surrounding Sheppard AFB. The majority of military children attend either the Wichita Falls Independent School District (WFISD) or the Burkburnett Independent School District (BISD). Other school districts include the Iowa Park Independent School District, City View Independent School District, Holliday Independent School District, Henrietta Independent School District, Archer City Independent School District, and the Petrolia Independent School District. This guide will provide helpful information about the local public school system, ranging from enrollment to graduation requirements.

Private Schools

Wichita Falls has approximately 3 parochial and secular private schools. While each school has its own enrollment and graduation requirements, all require military children to provide appropriate credentials, including but not limited to transcripts, test scores, and immunizations. Website links and reviews of many of those schools can be found at the Great Schools and Private School Review websites.

Home School

Home School or home education is a legal, alternative educational option used by military families who wish to forego public or private school in favor of directly overseeing their children's primary or secondary education. Controlling their children's education may take the form of parental instruction, or tutors. Those interested in learning more about home schooling can go the following web site: www.tea.state.tx.us/home.school. There is also a local homeschooling support group in Wichita Falls. It is Home Educators Across Texoma (HEAT). The web site for HEAT is www.wfheat.com. There is also a Sheppard AFB Homeschoolers Group that meets frequently.

School Liaison Officer (SLO)

The School Liaison Officer or SLO is the chief advocate for the educational needs of military-connected children associated with Sheppard AFB. The SLO provides guidance to service members and their families regarding enrollment, placement, graduation, and eligibility for extracurricular activities at local K-12 schools. Although the majority of military children attend traditional public schools, SLO assistance extends to several other local education alternatives, including home education/home schooling, private schools, public schools, and cyber/virtual schools.

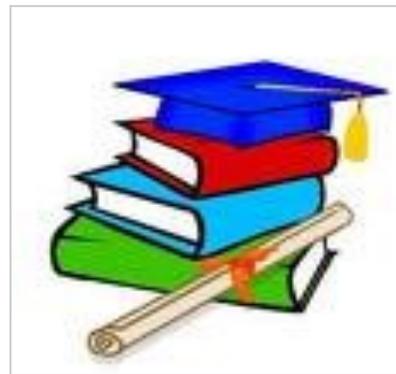

There are several local options when considering the education of your child, and deciding the type of education for your children is an important decision that requires research and preparation,

Remember; after the family, school is often children's most important source of stability and structure, especially during major transitions, such as permanent change of station (PCS) or deployments.

The goals of the SLO include the following broad categories:

- Identifying barriers to academic success and developing solutions
- Promoting parental involvement
- Developing and coordinating partnerships in education
- Providing parents with the tools they need to overcome that stem from the military lifestyle
- Providing for the delivery of special needs family support services in coordination with the Medical Treatment Facility and Exceptional Family Member Program (EFMP) Manager and Exceptional Family Member Program Family Support ((EFMP-FS).
- Promoting and educating local communities and schools regarding the needs of military children
- Providing information for newly assigned military families and parent groups
- Providing ongoing analysis and feedback on family needs
- Maintaining communication with school representatives by identifying and distributing school information

For more information please call the Sheppard AFB School Liaison Officer.

Public Schools

Wichita Falls Independent School District (WFISD) is a public school district in Wichita Falls, Texas is accredited by the Texas Education Agency (TEA). WFISD is located in a growing community in North Texas. Wichitians enjoy a slower-paced, friendly, atmosphere with the added benefits of quick access to Dallas/Ft. Worth metroplex and Oklahoma City. WFISD serves most of Wichita Falls including portions of Sheppard AFB.

Support from the community's private and public foundations have always been strong. The generous support of West Foundation, Priddy Foundation, and Perkins/Protho Foundation, as well as the WFISD Foundation, allows the district to provide unique opportunities to students and faculty. These foundations provide classroom grants, funding for student activities, and student/faculty incentives.

The Wichita Falls ISD is one of the few Texas school districts to offer a choice program that gives parents the choice of what secondary school they would like their child to attend. While elementary school attendance zones exist, parents can opt out of these and send their children to one of the five elementary magnet schools in the district. Secondary schools in the WFISD offer Advanced Placement and International Baccalaureate courses to students wishing to pursue a more challenging academic curriculum.

In May 2015 Wichita Falls voters passed a \$59.5 million bond package which will go towards a Career and Education Center (CEC), Junior High renovations, safety and security enhancements, technology infrastructure, and Memorial Stadium parking and restroom improvements.

In August 2017 WFISD the district opened the doors of the CEC, the first state-of-the-art facility devoted exclusively to career education. The CEC is located on a 100-acre property that sits on Hatton Road at 4201 Henry S. Grace Freeway.

The District purchased three pieces of land and combined them with a fourth land tract off Hatton Road, which was previously owned by the District, to create the property that will serve as home base for career training.

The \$30 million facility is scheduled to be built \$29,411 under its target budget. It will include \$391,941 in roadwork costs that the City of Wichita Falls will reimburse.

Another \$2 million was spent for furniture, according to Superintendent Mike Kuhrt.

The new facility will bring state-of-the-art technology and career-based equipment together in the largest career program in the area.

The building features T-shaped design. A one-story wing will house industrial spaces with high-ceiling laboratories and work spaces.

There will also be a two-story wing that will be home to non-industrial career pathways, such as audio-visual production, graphic design, criminal justice, medical science and computer networking.

Throughout the building process, WFISD has been seeking design and program direction from 100 local business leaders in 15 industries who may ultimately hire the district's graduates.

Programs currently offered:

Automotive Collision Repair

Automotive Technology

Electrical Technology

Welding

Agriculture Science

Horticulture

Floral Design

Ag Facilities & Design

Vet Assisting

Equine Science

Construction

Architecture

Cosmetology

Audio/Visual Production

Graphic Design

Marketing

Business

Education and Training

Counseling/Mental Health

Culinary Arts/Hospitality

Criminal Justice

Health Science (CAN, LVN, OP/PT, Health Information Management, EMT)

Computer Information Technology

Public Schools

Located just 5 minutes north of Wichita Falls along Interstate 44, the Burkburnett Independent School District area combines the best of urban, suburban and rural living. Covering nearly 189 square miles, and including Burkburnett, Sheppard AFB, Cashion, Thornberry, and the surrounding areas,

More than 90 percent of the districts graduates go on to colleges and universities across the nation. The district continues to improve in the academic disciplines that prepare students for higher education.

Special Education is offered for students ages 3 through 21, and a Head Start and Pre-Kindergarten program is offered to disadvantaged 3 and 4 year olds. A comprehensive instructional program is offered to students in grades kindergarten through 12, with numerous innovative approaches to career preparation, including the Tech Prep program available to Burkburnett High School students. Burkburnett High School competes in University Interscholastic League academic and athletic activities of District 3-AAA District 5

In 2015 Burkburnett voters approved a \$47.1 million bond package which includes adding wings to various campuses, security upgrades, relocate 3-4-5 grade students from Hardin & Evans Elementary. Here are just a few of the highlights of the recently passed bond.

A large piece of the bond was building a new school to house many of BISD's 3rd, 4th, and 5th graders while utilizing Hardin Elementary for some 6th grade classes and the Central Administration offices. Our new elementary school offers 85,000 square feet of innovative and adaptable learning spaces, while being energy efficient and state-of-the-art. While Tower Elementary will still house K-5 students, Evans will become the Pre-Kindergarten through Grade 2 in-town campus. Overton Ray Elementary will house all Grades 3-5 students who do not attend Tower Elementary. The new campus, named after long time BISD educator and principal Overton Martin Ray, Jr., will be ready to welcome students in August 2018.

BISD has collaborated with the Buck Institute for Education to bring Project Based Learning to all our students. Project Based Learning involves incorporating key concepts into a hands on learning experience. Our focus is on teaching students the skills they will need to be successful citizens. Each of our students has access to an iPad to extend their learning past the normal school day. Students in pre-k through 3rd grade have classroom sets of ipads that teachers will send home with students for extended learning opportunities. All 4th grade through 12th grade students are assigned an iPad that they can take home and keep with them at all times. At the Middle School level, we have designed a course to help our students explore post high school graduation opportunities. This will help students choose from the many options we have available both at the high school and at middle school level. Middle school students can take advantage of courses such as art, theater, robotics, outdoor education, Spanish, and algebra, as well as pre-AP courses.

At Burkburnett High School, we have added cosmetology, criminal justice and auto body to our already broad list of courses. We take pride in our Advance Placements courses, dual credit opportunities, Junior ROTC, and fine art programs.

Public Schools

Iowa Park Consolidated Independent School District (IPCISD) is located ten miles west of Wichita Falls on Highway 287. The school district is dedicated to its stated mission.

The mission of Iowa Park CISD is to ensure our students the best educational experience of any North Texas school district. We will provide a well-rounded school experience in a safe environment that will prepare our graduates to attain their life goals.

In pursuing that mission, Iowa Park Consolidated Independent School District emphasizes both academic and non-academic aspects of the public school experience, excelling in both. Iowa Park students have excelled in and out of the classroom; always representing the school and community with a unique character we call...**HAWK PRIDE!!!**

In 2012 IPCISD voters passed a \$14.7 million bond for the following:

Hawk Stadium

- New Entrance and Press Box
- New Bleacher Seating, Handrails and Ramps to meet ADA standards
- New Concession and Bathroom Facilities
- New 8 lane track
- New Synthetic Turf Field and Drainage System

Technology

- Wireless Infrastructure at all campuses
- Distance Learning with Vernon College for college credit courses
- Virtual Fieldtrip opportunities for all students
- Integrated Staff Development

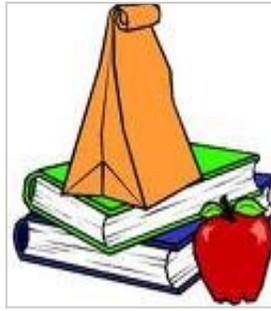

Safety and Security

- New security camera systems at all campuses
- New classroom security locks at all campuses
- Enclose gym corridor at Bradford Elementary

New High School Exterior Façade

- New Exterior Façade including: Main Entrance, Gym Entrance, Cosmetology and Vocational Buildings

Public Schools

City View Independent School District is an excellent public educational system, accredited by the Texas Education Agency, located in the northwest portion of Wichita Falls. The district has one elementary campus (Head Start—6th grade) and one brand new secondary campus (grades 7th—12th). Established by the Wichita County Commissioners as Common School District No. 8, in 1890, City View has since evolved into a modern educational system, with a staff of 145, which consistently strives to meet the needs of its students. The seventeen square mile district spans an area from the Wichita River north to Reilly Rd and east from Huntington Lane to Beverly Drive.

The elementary campus is a well maintained facility of some 125,000 square feet. Modern in appearance with a superior library/media center; the building has two full size/gymnasiums, one computer lab, a recently enlarged and renovated cafetorium, and has just had all classrooms recarpeted and painted.

The District is recognized in teaching the fundamentals of reading, mathematics, and writing as evidenced by being named a “Recognized District” in 2002 by the Texas Education Agency. In addition, the curriculum includes a variety of challenging and innovative courses for our Gifted and Talented students, the slower learner, and the exceptional student.

Public Schools

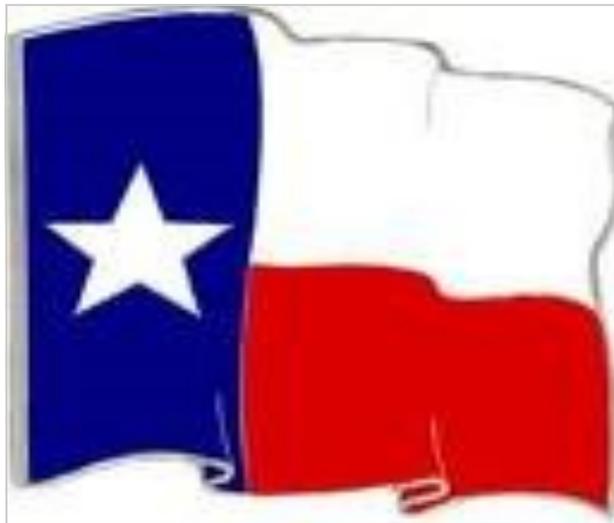

Student Enrollment/Registration:

Grades 1-12

If your child is enrolling in the Wichita Falls Independent School District, Burkburnett Independent School District, Iowa Park Consolidated Independent School District, the City View Independent School District, or the Holliday Independent School District for the first time, regardless of the grade, you will need the following items to complete the registration.

- Birth Certificate
- Social Security Card
- Immunization Records
- A current household utility statement (i.e. gas, water, electric, telephone) indicating name and address (not cable)

If your child is enrolling into a WFISD secondary school you will need to stop by the Student Assignment Office where you will complete a choice form and provide proof of residency. The Student Assignment Office is located at 1104 Broad Street, Wichita Falls, TX. Their phone number is (940) 235-1029.

Public Schools

Texas High School Graduation Requirements

The 83rd Texas Legislature passed House Bill (HB 5) amending the Texas Education Code to transition from the three current high school graduation programs to one foundation high school program with endorsement options to increase flexibility.

HB 5 enabled the State Board of Education (SBOE) the authority to identify advanced courses to the new graduation program, identify the curriculum requirements for the endorsements, and determine the requirements for performance acknowledgments related to the new graduation program. The SBOE made its final decisions on 21 Jan 2014.

HB 5 started with the 2014-2015 school year.

The following two pages covers the requirements needed for graduation.

Since these new graduation requirements can be a bit confusing if you have any questions please contact a counselor at your student's school.

Public Schools

Incoming Class:

The chart below describes the graduation requirement for students who enter high school **in August 2014 or later** . If you have questions regarding the new graduation requirements or the subject course sequence please call the counselor at your child's school.

Courses		Foundation
		4 credits
English	English I English II English III Advance English	
		3 credits
Mathematics	Algebra I Geometry Advanced Math	
		3 credits
Science	Biology IPC or Advanced Science Advanced Science	
		3 credits
Social Studies	World Geography or World History U.S. History Government (1/2 credit) Economics (1/2 credit)	
		1 credit
Fine Arts		
		2 credits
World Language (or substitute)	Year 1 Year 2	
		1 credit

Interstate Compact on Educational Opportunities

Military children move an average of six to nine times during their parents' typical 20-year career. The frequency of military moves not only complicates family life, but also presents challenges since our nation does not have a universal public school system. Education is administered locally, so school matters ranging from enrollment to graduation vary from one school district to another. For those reasons the Interstate Compact on Educational Opportunities for Military Children (Texas Senate Bill 90) is very important. This bill became effective on May 5, 2009. This Compact addresses inequities facing schoolchildren of military parents when they are required to relocate across state lines. Specifically, it allows the laws of the "sending" state to apply to transferring students from military families in the schools of the "receiving" state for such policies as graduation requirements, Advanced Placements (AP), and age of student enrollment. On Sept 22, 2009 Governor Rick Perry named Robert Scott as Commissioner of the Texas Interstate Compact on Educational Opportunities for Military Children. As of August 2010, 31 states had signed the compact, which covers about 85 percent of military in the United States.

Impact Aid

Parents of military children have the unique opportunity to quantify a part of their children's education by completing the **US Department of Education Federal Impact Aid Survey**. Federal impact aid is critical to ensuring appropriate level of funds make it to public school districts charged with education military children.

The constant flux within public school districts around the nation, coupled with the loss of property tax revenue due to the presence of tax-exempt federal property, such as a military installation, prompted Congress in 1950 to provide financial assistance, or impact aid, to local education agencies (LEAs), such as the Wichita Falls Independent School District, Burkburnett Independent School District, Iowa Park Consolidated School District, and the City View Independent School District. The additional funds are meant to offset some of the expenditures due to the enrollment of federally connected children, such as military children and Native American students.

Surveys are used to determine the total number of military-connected students in the LEA. The anonymous information recovered from the survey is sent to the Department of Education to determine if the LEA meets the minimum requirements for receiving impact aid funding, which must be at least 400 students or three percent of the average daily attendance.

Failure to complete the survey means less money for the public school district, and consequently, fewer resources for military children. In fact, since the early 1990s, Congress has appropriated and increasingly smaller amount of funds for Impact Aid, making completion of the form even more important.

For more information about Impact Aid, visit the Department of Education Impact Aid Program Office, or DoDEA Education Partnership Branch.

Additional Facts about Impact Aid

- LEAs may use the funds in accordance with local and state requirements, including the salaries of teachers, purchasing textbooks, computers and other equipment; after school programs and remedial tutoring; advanced placement classes; and special enrichment programs
- Children with a parent in the Reserve or National Guard may be eligible to be claimed on the Impact Aid application if the parent is on active duty on the survey date as the result of a presidential order
- Guard and Reserve applicants must have documentation of the parents' status, either a copy of the orders for the individual service member or a service component certification for the unit with the names of individuals

Virtual/Cyber School

Although Department of Defense Education Agency (DoDEA) has offered distance learning courses since the early 1980s, they are currently developing additional academic opportunities through the use of 21st Century learning and communication tools. The DoDEA Virtual School will eventually offer a complete curriculum of courses necessary for a student to graduate from high school.

The Virtual High School will use the same criteria for eligibility as DoDEA schools. Eligibility for enrollment in DoDEAs overseas school system is determined through categories (*see sidebar*). Eligibility for attendance in DoDEA schools in the continental U.S. remains the same—the sponsor must be assigned permanent quarters on the installation and an active duty or federal civilian employee.

The Virtual High School will assist transitioning DoDEA students by allowing them to take classes they need regardless of their location and enhance curriculum by providing additional resources to fill gaps, assist in transition and provide flexibility in scheduling.

There will be 33 new courses available by the official start of the program in the fall of 2011. In addition, the Virtual High School will continue to provide courses to supplement DoDEA school offerings such as Advanced Placement courses.

There will be three hubs for the Virtual High School: Wiesbaden, Germany; Camp Humphries in the Republic of Korea; third hub will be at an as yet undetermined location within the United States.

Categories of Eligibility for Attendance in DoDEA Schools Overseas **Category 1**

- A student is the dependent of a service member or DoD civilian and is on the official orders placing them overseas and receiving housing allowance. Space-required, tuition-free
- (FMS or MAP) A student is the dependent of a person who is either in Foreign Military Sales (FMS) or the Military Assistance Program (MAP), Space-required, tuition paying
- DoD Contractor. A student is the dependent of a DoD Contractor, Space-created, tuition paying

Category 2

- (Federally Connected) A student is the dependent of a person who is a U.S. Government Agency Employee other than DoD, Space-available, tuition paying

Category 3

- (Non-Command Sponsored) A student is the dependent of a service member or DoD civilian and is not on official orders, or on a special waiver category, Space-available, tuition-free

Category 4

- (Non-Federally Connected) A student is the dependent of a person who is not in any of the above categories, Space-available, tuition-paying

Home School

Home schooling has become an option used by an increasing number of families throughout the nation, including military families. There are many local, state, and federal resources available for anyone interested in schooling their child. Below are a few web sites you may find beneficial.

www.tea.state.tx/home.school
www.hslda.org/hs/state/tx
www.wfheat.com
www.thsc.org
www.time4learning.com/homeschool/homeschooling_in_texas.shtml

If you would like to speak to someone concerning homeschooling you may contact Mr. Wes Pierce. Mr. Pierce works for the Region 9 Education Service Center. His phone number is (940) 322-6928.

Communication is the cornerstone of any educational program. Communication between parents and school

Advocate & Support Your Child's Education

staff is critical to your child's success and the success of the school. Most public and private schools have some version of the traditional Parent-Teacher Association. These organizations are meant to provide parents the most current information about school curriculum, extracurricular activities, and upcoming events.

Most School Districts also hold monthly board meetings. You can go to the websites to obtain a schedule, to read minutes from previous meetings.

Exceptional Family Member Program (EFMP)

The U.S. Air Force EFMP is standard and mandatory for all Department of Defense active duty service members. It is meant to identify family members with special needs and/or educational needs.

EFMP is designed to provide support to military family members and includes a variety of personnel, medical, and family support functions. The Exceptional Family Member Program—Family Support (EFMP-FS) is the community support function provided by the Airman and Family Readiness Center (A&FRC) that includes, but is not limited to, on and off base information and referral, parent training, support groups, relocations assistance, financial management, and school information. The EFMP-FS representative housed in the Airman & Family Readiness Center is Erich Lofton. Mr. Lofton can be reached at (940) 676-5512.

The begin the evaluation and placement process, each school provides an Individualized Education Plan (IEP) and assembles a team. The team typically includes the child parents, district psychologist, teacher, principal, and an advocate or liaison, to work together throughout the process.

Every IEP must be designed for one student and must be a truly individualized document. The IEP creates an opportunity for teachers, parents, school administrators, related services personnel, and students (when appropriate) to work together to improve educational results for children with disabilities. The IEP is the cornerstone of a quality education for each child with a disability.

Exceptional Family Member Program (EFMP)

If a child has not been identified as a special needs student, it is important that parents take advantage of the military resources that can help. Discuss your concerns with your child's pediatrician. Follow up with any recommended testing. Once a member has entered the program, the needs of the family will be considered during the assignment process. *However, the needs of the Air Force will always be considered first.* After you get settled, contact your local school to schedule a review of your child's IEP so teachers at your new assignment will be familiar with his/her needs. It may be advisable and convenient to create a portfolio for your special needs child. You can use it to keep copies of all educational records, IEP, medical documentation, and other documents.

For more information about EFMP and helpful hints to navigate the special education process, visit Specialized Training of Military Parents (STOMP) where you will find a great deal of information as well as a list of helpful publications,.

Support Your Child's Education

When you transfer...keep track of your child's documents

Military children moving from one school system to another face many of the same challenges as their parents. Not the least of which is transitioning to a new environment with new requirements and new rules. The best way to ease the transition is to keep accurate academic and extracurricular records for your child, and encourage older children to do the same. You should avoid packing school records, copies of IEPs or similarly important school documents in luggage. If your luggage is lost, so are the school documents.

The Military Child Education Coalition (MCEC) suggest that sending and receiving school systems include the items below when transferring records of military dependent children. The list below will get you started:

Middle and high school students also should download and keep copies of school handbooks & course descriptions (if separate items) for reference. If possible, consider asking for a sponsor at the new school. At some installations this is arranged through the local Youth Center or by contacting the school directly. It is also important to prepare for the emotional aspects of a move, and some children will grieve at the thought of leaving friends. There are a number of resources that may assist in mitigating the emotional turmoil a move may create. (see page 20).

College Preparation and Financial Aid

Most serious considerations for post secondary education should begin by the eight or ninth grade, but it is never too early to begin thinking about college. Military children should develop a habit of collecting and saving evidence of their accomplishments, particularly those pertaining to extracurricular activities, awards, jobs (including volunteer work) and grades. A portfolio (paper or electronic) is the best way to manage the report cards, awards, certificates, newspaper articles, photographs, etc, a student collects during his or her academic career. For more guidance visit www.dodea.edu/students/college.cfm

Paying for higher education becomes a more expensive proposition every year. Below is a small list of financial aid resources you may find useful to you and your child as your family begins to think about financing their pursuit of an undergraduate degree.

(Beware of scams and services that offer to search for financial aid money for a fee. Law protects you against this type of fraud. For free information or to file a complaint, call (877) 382-4357 or visit www.ftc.gov/scholarshipscams

- www.military.com/education (A searchable database of more than \$300 million in scholarship money available for military members and their dependents).
- www.afas.org (The Air Force Aid Society General Hap A. Arnold Education Grant Program provides grants to children of: active-duty members, Title 10 AGR/Reserve, Title 32 AGR performing full-time active duty, retired, retired reserve and deceased Air Force members; spouses (stateside) of active-duty members and Title 10 AGR/Reservists; and surviving spouses of deceased personnel for their undergraduate studies).
- www.students.gov (U.S. government website designed for students and their families. This website allows easy access to information and resources from multiple resources in U.S. government).
- www.militaryscholar.org (Sponsored by DeCA, the Scholarships of Military Children Program was created to recognize the contributions of military families to the readiness of the fighting force and to celebrate the role of the commissary in the military family community)
- Sheppard AFB Spouses Club Scholarships (The Officer Spouses Club and the Enlisted Spouses Club both offer scholarships to spouses and to military children. They will advertise in the Sheppard Senator and also on the base marquee)

Useful National & Governmental Websites

- **Military Child Education Coalition (MCEC)** [www,militarychild.org](http://www.militarychild.org)
A national organization that advocates “for the sake of the child”
- **Dept of Defense Education Activity (DoDEA)** www.dodea.edu
Is for schools located overseas and on some state side installations
- **Military K-12 Partners** promotes partnerships between services, school districts and educators and non-profit private organizations <http://militaryk12partners.dodea.edu>
- **Military Homefront** www.militaryhomefront.dod.mil
Click “Troops & Families” for Special Needs, EFMP and Education. Tools for PCS include “Plan my Move” and military installations
- **National Military Family Association (NMFA)** www.nmfa.org
Operation Purple Summer Camps and much more. Click on “Education”, then “children’s education”
- **Military One Source** www.militaryonesource.com
Offers wide variety of programs and services
- **DoD and States, Partnering to Support Military Families** www.usa4militaryfamilies.dod.mil
is an advocacy group working to minimize Disruption for military children during transition and Deployment
- **Specialized Training for Military Partners (STOMP)** www.stompproject.org
Has website resources on developing IEPs, list of Invaluable publications and checklists
- **Military Teen on the Move (MTOM)** also has links for Kids on the move www.defenselink.mil/mtom
- **Tutor.com** provides free online tutoring and homework help from professional tutors in more than 16 subjects www.tutor.com
